AccessEmergency Medicine allows physicians and residents to find diagnosis and treatment answers in one click for a broad spectrum of complaints encountered in the ED.

Instructional videos include key clinical procedures, decision rules, and crisis interventions performed in the Emergency Department.

- **Complete coverage of procedures** with comprehensive information on contraindications, approaches, materials and complications, with animations and procedural videos updated quarterly
- **Fully integrated drug database**, updated in real-time
- **Extensive library of images** that includes common and uncommon clinical presentations and imaging studies of children and adults allows for quick diagnosis
- **Regularly Updated** with:
  - Text updates to *Tintinalli’s Emergency Medicine: A Comprehensive Study Guide*
  - Cases from the authors of *Fitzpatrick’s Atlas of Dermatology*
  - New videos and animations of emergency procedures and diagnostic exams
- **Specialized Search Capabilities** - Search all topics, pediatric-related topics only, or images and videos only

**Complete List of Titles:**
- *Ma’s Emergency Ultrasound*, O. John Ma, James R. Matser
- *Pearlm’s Obstetric and Gynecologic Emergencies: Diagnosis and Management*, Mark D. Pearlman, Judith E. Tintinalli, Pamela L. Dyna
